

# Bibliography management: **biblatex** package

Overleaf

Using **biblatex** you can display bibliography divided into sections, depending of citation type. Let's cite! The Einstein's journal paper [Ein05] and the Dirac's book [Dir30] are physics related items. Next, *The L<sup>A</sup>T<sub>E</sub>X Companion* book [latexcompanion], the Donald Knuth's website [Knu], *The Comprehensive TeX Archive Network* (CTAN) [ctan] are L<sup>A</sup>T<sub>E</sub>X related items; but the others Donald Knuth's items [knuth-acp; Knu73] are dedicated to programming.
