

# Display Style in Math Mode

Pete Doe

July 2, 2026

## Introduction

The canonical example is taken from page 142 of the TeXBook, although we've replaced

*by LaTeX's preferred and*

:

$$a_0 + \frac{1}{a_1 + \frac{1}{a_2 + \frac{1}{a_3 + \frac{1}{a_4}}}}$$

The default typesetting style can be amended by using the *command* :

$$a_0 + \frac{1}{a_1 + \frac{1}{a_2 + \frac{1}{a_3 + \frac{1}{a_4}}}}$$
